# St. Croix Crossing Project Update

## Lookout Trail to close in late Sept. for two weeks

Residents along Lookout Trail and Peabody Avenue may need to modify routes to/from their homes for about two weeks while crews complete utility work. Work is tentatively scheduled to begin Sept. 26 or Sept. 27, weather permitting. The closed section of road will be between 6432 Lookout Trail and 6400 Lookout Trail.

Lookout Trail will be closed to through traffic. Residents located north of the construction zone must access/exit the neighborhood via Highway 95. Residents located south of the construction zone must access/exit the neighborhood via Osgood Ave. N., 62<sup>nd</sup> St. N., and Beach Road. See map below.

Residents will experience increased construction vehicles along Lookout Trail and may experience some noise disruptions related to this work. Typical work hours will be Monday-Saturday from 7 a.m. to dusk. Emergency service personnel are aware of this work and will have access to the area at all times. Thank you for your patience and cooperation. We will continue to provide updates as work progresses.

# St. Croix Crossing Project Update

## **Paving planned for second Peabody connection to Lookout Trail in late-September**

Crews will pave the new Peabody Ave. connection to Lookout Trail in late-September. This potentially could occur Sept. 26 or 27, weather permitting. The connection is currently a gravel surface and was installed in late-August.

The paving operation will be complete in one working day.

School bus pick-up/drop-off may be affected for some students during paving. Some students may need to be picked-up/dropped-off at Lookout Trail. Ben Davis, Stillwater Area Public Schools transportation coordinator, will contact specific families if this work affects your student's bus.

## **Overlook Restoration**

The Scenic Overlook is open to the public. It will remain open during Lookout Trail utility work (see other side). A grand opening celebration will occur in October once utilities work is complete.

We will continue to provide detailed updates as work progresses. Thank you for your patience.
